

MCF2021 - Modelling the Cardiac Function: Theory, Numerical Methods, Clinical Applications

Wednesday, 1 February 2023 - Wednesday, 1 February 2023

P.zza Leonardo da Vinci 32 Milan Italy

Scientific Programme

This Congress aims at focusing on the state of the art in the mathematical modelling and numerical simulation of the cardiac function and its clinical applications.

This event will host plenary lectures from distinguished scientists as well as contributed talks.

This is the fifth Conference of the series MPF - Modelling the Physiological Flows and is organized by MOX - Politecnico di Milano, with the support of the EU ERC-ADG
